Please note all dive weekends and activities are dependent on Government guidance for Covid-19 and BSAC guidance for return to diving.

Dive weekends may have restricted numbers due to Covid-19 spacing requirements. The measured capacity of the boat is for six divers and one cox, to that end, dive marshals may request full payment for dive weekends to confirm commitment and places. With the Covid-19 spacing DM's will be restricted to twelve divers per event.

Further details of weekends, diving locations, qualification level/type of diving, plus camping site or accommodation details will be circulated and posted on the ESAC website and Facebook page. In the meantime, contact the relevant organiser/Dive Marshall or any of the Committee with any further queries.
